***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 2-5 and 14-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Siddiqi.

See the appropriate paragraph of the previous paper for the teachings of Siddiqi.

The 12/23/04 amendments add the limitation that the polymer beads contain embedded light reflective particles. These limitations do not appear to differ in scope with the original language. The Office maintains Siddiqi teaches in column 5 lines 20+ titanium dioxide incorporated within the beads and has been read on the instant claims.

New claim 16 states the polymer beads contain embedded light reflective particle that has been fairly read on the above teachings of Siddiqi in column 5.

Applicant's arguments filed 12/23/03 have been fully considered but they are not persuasive.

Applicant's states Siddiqi fails to teach the polymer beads are embedded in the matrix. The instant claims fail to claim this limitations. Claim 15 states the "... matrix contains said reagent and said polymer beads..." which is not commensurate in scope with Applicant's remarks. Even if this limitation were added, Siddiqi teaches in column 6 lines 16-20 the pressing of the beads into an adhesive on the surface that is indistinguishable from embedding.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
